

BOARD OF STUDIES(BoS) MEETING

DEPARTMENT OF BIOTECHNOLOGY & BIOCHEMICAL ENGINEERING

MEETING MINUTES-2

MEETING DETAILS:

Meeting	BoS Meeting	Date	Thursday, 26/06/2025
Chairperson	Prof. Meera Bai S, HoD	Venue	Google meet
Session	1.30 pm	Adjourned:	2:30 pm
Reference		Minutes Approved by	HoD, BT department

ATTENDANCE: (Hybrid mode)

Attendees			
S. No.	Name	Member details	Signature/ Remarks
1.	Prof. Meera Bai S	HoD & Chairperson, BT&BCE Department	
2.	Dr. P Binod	Principal Scientist, NIIST, Trivandrum (Academic Council Nominee 1)	Attended online
3.	Dr. Jaya Mary Jacob	Scientist- B KSCSTE, Trivandrum (Academic Council Nominee 2)	Attended online
4.	Mr. Arjun Prasad	Scientist KSCSTE, Trivandrum (Alumni representative nominated by Principal)	Attended online
5.	Dr. Malu Ravi	Associate Professor	
6.	Dr. Shamnamol G K	Associate Professor	
7.	Ms. Rincy Susan Raju	Assistant Professor	
8.	Dr. Shilpa Lekshmi L	Assistant Professor	
9.	Dr. Archana Rajendran	Assistant Professor	
10.	Dr. Tamilmani J	Assistant Professor	
11.	Ms. Chinchu Elezebeth	Assistant Professor	
12.	Ms. Gopika Ajit	Assistant Professor	
13.	Ms. Veena G	Assistant Professor	Relieved from the department
14.	Ms. Neethu Rajan	Assistant Professor	Relieved from the department

DISCUSSIONS:

INTRODUCTION:

A BoS meeting was convened on 26th June 2025 at 1:30 PM via Google Meet. Prof. Meera Bai S, chairperson of the Syllabus Revision Committee, welcomed all participants and initiated the proceedings. The following matters were discussed and deliberated:

Discussions and Decisions	Implementation/Follow-up by	Due Date
The meeting commenced with a detailed presentation of the academic performance for the first and second semesters. The coordinator Dr. Shamnamol G K reported a pass percentage of 77.7% in the first semester and 84.6% in the second semester. It was noted that these results are the highest within SBCE across all departments, reflecting the consistent academic progress of the department.		
The coordinator presented the revised Undergraduate (UG) and Postgraduate (PG) curricula and syllabi: • UG (B.Tech - Biotechnology and Biochemical Engineering): Curriculum and syllabus up to the 4th semester were reviewed. • PG (M.Tech - Biotechnology and Biochemical Engineering): Curriculum and syllabus up to the 4th semester were reviewed. • Introduction of Minor and Honours courses along with corresponding syllabi. • Elective grouping was conducted based on areas of specialization and presented accordingly.		
The coordinator provided an overview of departmental activities over the past academic year, which included: • Academic initiatives • Research developments • Student admissions • Faculty activities A special mention was made of the faculty industrial visit to Synthite Industries, Taste Park, Ernakulam , aimed at enhancing industry exposure and collaboration.		
To address industry relevance and placement improvements, the following strategies were proposed: • Establishing strong industry tie-ups through MoUs • Ensuring an industry-relevant curriculum • Introducing add-on certification courses These measures aim to align student skills with current industrial demands. The department discussed identifying and listing potential industries for:		

- Student internships
- Industry-academia interactions
- Collaborative projects

The field of Biotechnology and Biochemical Engineering was categorized into five major streams to better align internship opportunities:

1. Biotechnology and Bioengineering
2. Biochemical Engineering
3. Applied Genetic Engineering
4. Environmental Engineering
5. Food Technology

Comments from External Experts

- **Dr. Binod P**, Principal Scientist, appreciated the well-structured and balanced curriculum. He recommended the integration of Techno-Economic Analysis (TEA) and Life Cycle Assessment (LCA), particularly at the M.Tech level, where students can explore such advanced concepts in depth.
- **Dr. Jaya Mary Jacob** suggested including more textbooks by international authors as references for M.Tech courses. She also advocated the use of the flipped classroom model to foster self-learning and improve subject comprehension. Additionally, she recommended recognizing the Institute of Advanced Virology, Trivandrum, as a potential internship centre.
- **Er. Arjun Prasad** recommended replacing traditional assignments with micro-projects for each subject, allowing students to gradually build toward their final year project. He emphasized the need to disseminate the importance of foundational biotechnology courses and their real-world applications in class discussions. He also proposed incorporating a topic on the ethical use of Artificial Intelligence (AI) within the Research Methodology and IPR course in the M.Tech program. Furthermore, he inquired about the criteria for Track 1 and Track 2 project streams in MTech.
- The Board of Studies members have approved the revised curriculum and syllabus for both Undergraduate and Postgraduate programs in Biotechnology and Biochemical Engineering up to 4th semester. As per the suggestion of the Board of Studies (BoS), it is proposed to include **Dr. Sharon Mano Pappu**, Assistant Professor, *School of Biochemical Engineering, IIT (BHU), Varanasi*, as a potential member of the BoS. Given the interdisciplinary nature and the academic diversity of the Department of Biotechnology and Biochemical Engineering, her inclusion is expected to bring valuable insights and strengthen the academic framework of
