

BOARD OF STUDIES(BoS) MEETING - ECE Department

MEETING MINUTES-2

MEETING DETAILS:

Meeting	BoS Meeting	Date	Thursday, 26/06/2025
Chairperson	Prof. Pavitha P P, HoD	Venue	HoD's Chamber
Afternoon Session	Commencement: 10.00am	Adjourned:	11:30am
Reference		Minutes Approved by	HoD, ECE department

ATTENDANCE: -(Hybrid Mode)

Attendees			
S. No.	Name	Member details	Signature/ Remarks
1	Prof. Pavitha P P	HoD, ECE Department(Chairperson)	
2	Dr. J. Charles Pravin	Academic Council Nominee-1	Attended online
3	Dr. K Bhanu Rekha	Academic Council Nominee-2	Attended online
4	Dr. Pradeep R	VC- KTU Nominee	Attended online
5	Mr. Sunil Madhava Pai	Industry representative nominated by Principal	Attended online
6	Mr. Vishal Vijayan Nair	Alumni Representative nominated by Principal	Attended online
7	Ms. Ambika Sekhar	Assistant Professor	
8	Ms. N.R.Saritha	Assistant Professor	
9	Mr. S.Sabi	Assistant Professor	
10	Ms. Jasmin Basheer	Assistant Professor	
11	Ms. Pooja S.Mohan	Assistant Professor	
12	Ms. T.R. Sangeeta	Assistant Professor	
13	Ms. Chinchu.S	Assistant Professor	
14	Mr. Hari S.	Assistant Professor	
15	Dr. Divya G.	Assistant Professor	
16	Dr. Rahul Krishnan	Associate Professor	

DISCUSSIONS:

INTRODUCTION:

A Board of Studies (BoS) meeting was held in Hybrid mode on 26/06/2025 at 10am in HoD's chamber. The Head of Department welcomed all BoS members to the second Board of Studies meeting and initiated the session by presenting the meeting agenda. The following matters were conveyed and discussed. The discussions and decisions are presented below:

- Welcome and opening remarks
- Confirmation of the minutes of the previous BoS meeting
- Discussion on Results (2024-2025 AY)
- Discussion and approval of curriculum & syllabus (Semester 3-4), based on 2024 KTU regulation.
- Discussion and approval of Syllabus for Minor degree course.
- Suggestions from expert members

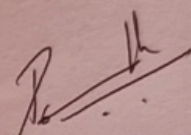

Discussions and Decisions	Implementation/Follow-up by	Due Date
1. The Chairperson welcomed all the Board of Studies (BoS) members and briefed them on the agenda of the meeting. 2. The Chairperson presented the minutes of the 1st BoS meeting, which were unanimously accepted by the members without any modifications. 3. The Chairperson shared the results of the 1st and 2nd semesters, providing a brief analysis of student performance and academic outcomes. The syllabus for these courses had been approved in the first BoS meeting. 4. The HoD proceeded with the second agenda item. She introduced the external panel members of the Department Curriculum Committee, who were involved in the syllabus revision, to the BoS members. 5. The Chairperson provided a detailed explanation of the curriculum for the 3rd and 4th semester courses offered by the ECE department. The discussion included core subjects, project-based courses, elective courses, and laboratory experiments along with their detailed syllabus. 6. The BoS Chairperson invited the course coordinators to provide a detailed explanation of the syllabus modifications made to the following subjects, based on the review and recommendations of the Department Curriculum Committee and feedback from industry experts:		

Semester 3 Courses: • PCECT 303 – ANALOG CIRCUITS <i>Module 2</i> was revised by excluding “input and output impedance of BJT cascode amplifier using hybrid π model” since small signal analysis is already covered at the beginning of the module under “BJT amplifiers.” <i>Module 4</i> the detailed study of Class A, Class B, and Class AB power amplifiers was retained, while the basics of Class C and Class D power amplifiers were removed. • PBECT 304 – LOGIC CIRCUIT DESIGN <i>Module 2</i> was enhanced by adding "Introduction to Verilog HDL" to introduce students to simulation tools and computational skills. <i>Module 4</i> was updated to incorporate "Introduction to FPGA," aligning the course with modern industrial practices and digital transformation trends. As Logic Circuit Design is a project-based course, the course coordinator also proposed modified topics for student projects.	Prof. Pooja S Mohan (BoS Members) Prof Chinchu S (BoS Members) Prof. Jasmin Basheer (BoS Member)	
Semester 4 Courses: • PBECT 404 – MICROCONTROLLERS <i>Module 4</i> was updated to include "Introduction to Advanced Microcontrollers" to familiarize students with the latest advancements in microcontroller technologies. 8. Dr. J. Charles Pravin (BoS member) inquired about the expected project deliverables and suggested incorporating FPGA-based projects in the project-based courses. He also recommended encouraging students to take up innovative projects beyond those listed in the syllabus. 9. The Chairperson explained that project delivery would be carried out in three phases: hardware development, presentation, and project report submission. 10. Dr. K. Bhanu Rekha (BoS member) accepted the syllabus modifications and recommended providing adequate resources, including lab facilities and guides for project batches. She also suggested including a Signals and Systems lab. 11. The Chairperson clarified that since lab courses are already part of the curriculum, students can utilize the available facilities and work under the guidance of the assigned faculty for their projects. 12. Ms. Jasmin Basheer (BoS member) mentioned that the	BoS Chairman	

Digital Signal Processing Lab in Semester 5 includes the essential experiments related to Signals and Systems. 13. Dr. Pradeep R. (BoS member) emphasized the importance of fostering innovation in student projects, suggesting that at least one or two projects could potentially be developed into startups. He also supported the syllabus revisions for the 3rd and 4th semesters. 14. Mr. Sunil Madhava Pai (BoS member) recommended updating the labs with Cadence software and appreciated the use of open-source simulation tools such as SPICE simulators and FPGA, which would help students gain industry-relevant skills. He also suggested replacing the 8051 microcontroller in the Microcontrollers course project topics with more advanced microcontrollers. 15. Mr. Vishal Vijayan Nair (BoS member) stressed the importance of project-based learning and encouraged students to undertake authentic and innovative projects rather than relying solely on those listed in the syllabus. 16. Dr. Rahul Krishnan (BoS member) also recommended the use of higher-level microcontrollers for student projects instead of the 8051 mentioned in the syllabus. 17. Ms. Jasmin Basheer (BoS member) presented the elective courses, categorized into three groups: instrumentation-based, AI-related, and electronic product design-based courses. Students may choose electives based on their interests. 18. Dr. J. Charles Pravin suggested adding a subject related to PCB design to the third group of elective courses. 19. The Chairperson elaborated on the minor baskets offered by the ECE department. 20. Dr. Pradeep recommended elaborating the CO-PO (Course Outcomes - Program Outcomes) mapping and updating the PSOs (Program Specific Outcomes) in the syllabus. 21. It was resolved to submit the approved curriculum and syllabus to the Academic Council for final approval. 22. The meeting concluded with a vote of thanks by Prof. Ambika Sekhar, who thanked the Chairperson and all members for their active participation and valuable contributions.	BoS Chairman	
	Academic Council	
	Academic Council	
HoD thanked all participants and the meeting was adjourned at 11:30am.
